

PENTAMIX EX 3

OVERVIEW

Pentamix EX 3 is a non-expansive shrinkage reduction agent in powder form.

ADVANTAGES

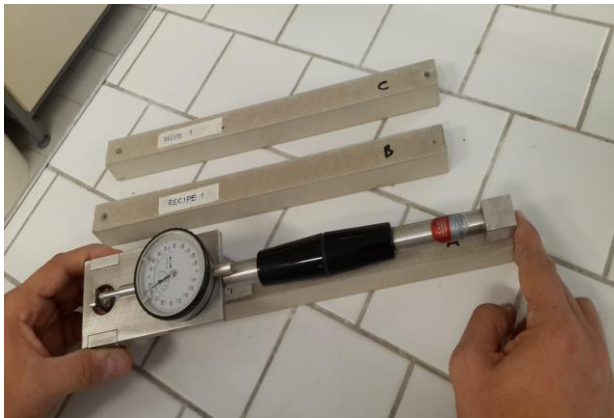

It is an ecological product with no VOC emission (French VOC Regulation A+).

It reduces the hydraulic shrinkage in all cement-based products.

It is especially efficient in low and high-thickness self-levelling screeds and in the structural mortars.

PACKAGING

20 kg paper bag.

The effects of **Pentamix EX 3** on hydraulic shrinkages in a standard mortar
(dosage 0.5% on the total)
