

PENTAPROOF 30P

OVERVIEW

Pentaproof 30P is a silicone-based waterproofing agent in powder form.

ADVANTAGES

It waterproofs effectively the whole thickness of the dry mortar.

It gives surfaces the sought after “drop effect”.

It does not modify the setting and hardening time of the mortar nor its final resistances

PACKAGING

25 kg paper bags.

Waterproofing action pf **Pentaproof 30P** in a cement-based standard mortar.
